

One of the three of us has an unhealthy obsession with dragons, which maybe doesn't relate to the team as a whole, but it is notable regardless. If we gave you one guess, we'd all bet on you getting it correct easily. Another one of the three is (pretty much) a pro at Ultimate Frisbee. Although he doesn't have height, he makes up for it with his lengthy vertical. Last, (but not least), one of us has an associate's degree in Computer Science from the local community college out of high school. All of us are excited to see where the future takes us. We look forward to the rest of our time in this class, and at Stevens.
